I. Monthly Monitoring Report
   A. 228 of 337 funded slots enrolled at end of December. All full day in-person slots are full, and there are 6 openings in the afternoon section of one class. Fully-remote has a number of openings. Families are not interested or are struggling in the remote option.
   B. There are 85 families on waiting list, 54 of which are income eligible. All of these families are interested in center-based option.
   C. Some remote families who have been receiving food delivery are completely disengaged from remote learning and not responsive to contact. D. Jack-James suggested having Community Workers go out on food delivery and speak with the parents to see what the barriers are.
   D. CACFP reimbursements are down dramatically due to unenrolled slots.
   E. Working to get all children up-to-date on health requirements, including fully-remote children. Seven children are approaching the 90-day deadline.
   F. All safety drills and checklists have been completed, and there are no outstanding issues to resolve.
   G. As of December, 20 children with a documented disability are enrolled. The Disabilities Specialist resigned effective January 11, 2021, so this will add another barrier to meeting the 34 child (10%) requirement.
